JOSEPH AKPAN

OBJECTIVE

Passionate and Self Motivated React developer with 1+ years of experience and a strong focus on front-end development. Expertise in web design and development, with a particular interest in using React to create high-performance user interfaces, as well as highly potent skills and ability in encoding virus-free and efficient code, plus a very strong ability to execute standard software architectural patterns. Seeks a position where he can continue developing his skills and contribute to a team of talented developers.

EXPERIENCE

-

Frontend React developer
- 1+ year experience in developing UIs and apps and performance improvement in React JS development environment

- Implemented automated tests to ensure code quality and reliability in accordance with best practices.

- Collaborated closely with other developers on projects that require multiple people to complete tasks.

- Created reusable components that were easily maintainable, reducing the time spent on future development by 40%

- Collaborated with designers to implement UI changes based on client feedback

- Worked with some awesome tools to create an interactive and user-friendly website experience

- Tested front-end code in multiple browsers to ensure cross-browser compatability.

- Consulted and documented UI best practices and code standards.

- Leveraged responsive web frameworks to consistently complete product deliverables with high design concepts ahead of schedule
